### How to open the .fig file?

#### 1. Download and install the Figma app to your computer

<https://www.figma.com/downloads/>

#### 2. Import the .fig file

Go to the **home** tab menu and click icon "+" from the Drafts menu

Click the **Import** menu and locate the .fig file you just downloaded.

### Figma file configuration

#### 1. Pages and Layers

Once you have successfully imported the figma file, you will find the structure of the pages like the screenshot attached.

## HR-097 Fastrack - Cargo Delivery Hero Section

---

### 2. Text Styles

You can find the Text styles for this template.  
We have created H1, H2, H3, H4 and P styles

### 3. Color Styles

For the color styles, you can find the configuration for  
the primary color, secondary color, and tertiary colors.

## How to edit the styles?

### 1. Edit the text styles

To edit the text style,  
click the configuration icon.

### 2. Edit the text properties

You can edit the font name, weight, size, etc.

Once you edit this configuration, all text that uses this configuration will be automatically adjusted.

## How to edit the styles?

### 1. Edit the color styles

To edit the color style, click the configuration icon.

### 2. Edit the color properties

You can edit the color hex code, opacity, and color name.

Once you edit this configuration, all colors that use this configuration will be automatically adjusted.
